Dear **Shivani**,

I am writing to confirm that we are committed to Detailed Circular Economy report and following elements will be achieved:

- Our commercial team will contact our waste suppliers to check that destination landfill(s) will have the capacity to receive waste and request notification of the likely destination of all waste streams (beyond the Materials Recycling Facility) where known.
- Produce a Post Completion Report setting out the predicted and actual performance against all numerical targets and provide an updated versions of the Recycling and Waste Reporting form and the Bill of Materials.

I trust this satisfies your requirement.

Regards,

**Shaun Valentine BSc Hons FCIOB**  
**Project Director.**
