Hi Shaun,

Yes, that's fine. As a piece of evidence, we will submit:

- CE report,
- CE Template and
- Commitment letters or email confirmation sent to me.

This should suffice requirement for Planning condition 32.

Planning condition 32	Non-Conformities	Validation
	a Bill of Materials for the main elements of the building that sets out the weight of each element (facade, sub-structure, structure, floors, roof, internal partitions), its weight divided by the GIA floor area of the building and a commitment to achieving a minimum 20% recycled content by value;	Completed CE Statement Revised CE Report (Refer to Table 3, Appendix B- updated BoQ)
	a Recycled and Waste Reporting Table that details the weight of the waste arising from demolition, excavation and construction, the percentage of waste reused/recycled on site, offsite, the percentage to landfill, and the percentage to other management (e.g. incineration), with the commitment to a 95% diversion from landfill for all three waste streams;	Completed CE Statement Revised CE Report, (Refer to pg. 33, 34 and 39)
	specific measures to meet the Mayor's 65% target for Municipal waste recycling.	Completed CE Statement Revised CE Report (Refer to pg. 35, 39)
	for any residual waste that is destined for landfill, written evidence that the destination landfill(s) have the capacity to receive waste, along with a notification of the likely destination of all waste streams (beyond the Materials Recycling Facility) where known;	Commitment letters (awaiting)/ email confirmation
	a commitment to producing a Post Completion Report setting out the predicted and actual performance against all numerical targets and provide updated versions of the Recycling and Waste Reporting form and the Bill of Materials.	Completed CE Statement Commitment letters (awaiting)/ email confirmation
