Treated soft wood vertical timber cladding

Notes:

do not scale:
Detailed drawings and larger scale drawings take precedence. Figure dimensions only are to be taken from this drawing.

dimensions:
All building and site dimensions, levels and sewer invert levels at construction points are to be checked and verified on site by the contractor before the commencement of works. All dimensions are to be checked prior to the placement of orders for materials in the fabrication of work and any discrepancy, omission or error is to be reported to the Architect immediately for verification.

specification:
The Contractor is to comply with current Building, Regulation, British Standards Specifications, Building Regulations etc, whether or not specifically stated on the drawing. This drawing must be checked against and used in conjunction with any structural or other relevant speciality and design documentation provided.
