

Notes:

do not scale.
dimensions are to be taken from this drawing.

drawings are to be taken from this drawing.

drawings are to be taken from this drawing.

Specification:

The contractor is to comply with current Building Regulations, British Standards and all other relevant legislation. The drawing must be checked and signed in conjunction with any structural or other relevant specialist and design recommendations provided.

note:
All drawings and schedules are subject to local authority approval, building regulations and other statutory approvals together with structural and civil engineers details, energy specialists' criteria, M & E, and other key specialists' details. Any tolerances and differential movement between elements is to be accommodated within the design. Final design is to be fully coordinated to ensure a robust solution to meet appropriate legislative standards.

note:
Final materials are to be fully in accordance with local authority approved materials schedule.

STOP HAND
Risk of falling.
Working platform (all protection measures relevant to the technique used for installation - e.g. if installed from the floor or from the scaffold working platform).

Heavy object.
Risk assessment for manual handling to be carried out based on the weight of the object and the distance it is to be moved. The drawing must be checked and signed in conjunction with any structural or other relevant specialist and design recommendations provided.
