

Site plan for the proposed Riverside Way bridge. The plan shows Riverside Way running vertically, crossing The River Colne via a bridge. To the east of the river is a 'future development site' with a building footprint and parking. To the west is a 'future car park' area. A 'sign' is indicated on the bridge approach, with a '11.5m' dimension line. Other features include 'existing bridge' and 'new bridge' labels, and a 'Rockingham Road' at the bottom.
