

Middlesex

Published 1932

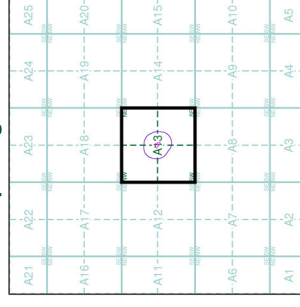

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the time adopted for England, Wales and Scotland in the 1840s. In 1884 the 2500 scale was adopted for mapping from 1884 to 1986. It was then replaced by the 1:2500 scale, which was adopted for mapping in 1986. The published date given below is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Ordnance Survey Plan

Published 1959 - 1965

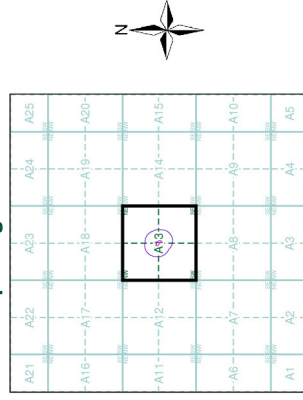

Source map scale - 1:1,250

The historical maps shown were reproduced from maps predominantly held at the 2500 scale adopted for England, Wales and Scotland in the 1840s. In 1864 the 2500 scale was adopted for mapping in Ireland and by 1866 it had been extended to the whole of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Large-Scale National Grid Data

Published 1991 - 1992

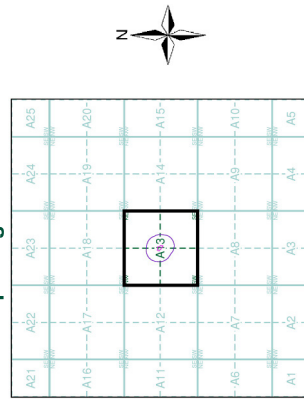

Source map scale - 1:1,250

Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Suit for Information on Microfilm') in 1992, and continued to be produced until 1994. These maps were the forerunners of digital mapping and so provide details of the built environment, as well as the natural and topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.
