6. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

The existing building includes terracotta, render and zinc cladding as the primary façade types which, are fixed back to the concrete and blockwork at ground level and the timber frame at 1st floor level and above. The balconies and terrace are timber decked which, is suspected to be on timber joists and beams however, this requires further intrusive site investigation works to clarify. Spandrel panels are located below windows and contain a combustible core.

This application requires that all the above mentioned items require replacement along with each facades respective horizontal and vertical cavity barriers, as well as cavity barriers to openings. Additionally, all non-compliant service penetrations through the external wall and soffits will require replacement or stainless steel sleeving, as well as new ventilation grilles. All products are to comply with current Building Regulations to achieve a minimum A2-s1,d0 rating, with the exception of any exemptions under Regulation 7, which are to achieve a minimum B-s3,d0.
