

DO NOT SCALE FROM THIS DRAWING. All dimensions must be verified by the main contractor before the commencement on site of any item of work or the preparation of shop drawings for their own work or that of sub-contractor or suppliers.

This drawing is to be read in conjunction with all relevant documents. Any queries or discrepancies must be reported immediately to the architect.

The diagram illustrates a parking lot layout. At the top, there are two separate rectangular plots, each divided into two sections by a vertical line. A dashed line extends from the bottom of these plots to the bottom of the main structure. Below this, a large circle is positioned above a long, narrow rectangle divided into eight horizontal sections. To the right of this rectangle is a small circle. The entire structure is enclosed within a red border. The text "38 spaces total" is written vertically to the left of the narrow rectangle. The bottom of the diagram features a green landscape border with a small plant icon.

approx. 40kWp photovoltaic array

8 spaces total
