5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

TPO 599 (T1)

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

I have an Oak tree (T1) situated in the centre of my garden. In the vicinity of the Oak (T1) I have an area that has significantly begun to sink over the last few years such that I am now concerned for the safety for my family whilst in the area.

To be clear, I do not believe the area that is sinking is solely due to the Oak (T1) but I do believe it is having an impact and what I believe to be the corrective action would unfortunately require the oak (T1) tree to be felled and uprooted.

If you approve I will certainly re-plant a tree, at the end of my garden, so not the same position as the oak (T1). I hope you find this explanation as justification for my request and can approve. Just to add the depression in the affected area is increasingly getting worse over the last couple of years.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Are you providing separate information (e.g. an additional schedule of work for Question 7)? ☐ Yes ☒ No
