

# Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

---

## When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

## 4. Biodiversity net gain strategy

### 4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

### 4.2 If no, what earlier date did you agree with the LPA?

### 4.3 How have you met 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

I am not using the habitat creation, enhancement, or offsite purchases in any other scheme

### 4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on-site, including to avoid or minimise the impact on irreplaceable habitats.

The existing site is 98% concrete all to be removed. The proposal is to plant lawn, trees and shrubs and to have a green roof. The site is shown with high solid wood panel fencing all round which gives protection from high winds and other natural impact. The green roof needs constant maintenance to ensure the roofs remain waterproof and in tact

### 4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☐ Yes

☒ No

#### 4.6 How will you achieve the target net gain percentage?

- ☒ On-site
- ☐ Off-site
- ☐ Both-site

#### 4.7 Are any of your on-site enhancements considered 'significant'?

[Find out what counts as a significant on-site enhancement.](#)

- ☒ Yes
- ☐ No

#### 4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

It is a very small site proposed to be developed without using containers but rather to plant in the ground. Trees and shrubs will be selected and specified by a specialist and planted following specialist instruction.

#### 4.9 If no, how many off-site biodiversity units do you need to meet 10% net gain?

Only answer this question if you're planning to use off-site biodiversity units (250 words).

#### 4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).
