

All windows to be over-boarded with perforated aluminium panels

Original cast iron gutter to be retained and supplemented with new cast metal goods in a similar profile

Roof to be fully re-tiled with any original tiles to be reused on the south elevation

Modern fixings to be removed

stone quoins have been lost where modern extension was added. to be repaired and new stones inserted to ensure a clean corner is reinstated.

Modern brick structure to be taken down and all evidence removed including lead flashing and cement wall plaster and made good with lime mortar

Thick cement flashing to be removed and structural engineer to inspect behind, structural engineer stabilisation recommendations to be advised and repairs made in lime mortar

Modern brick outrigger and associated cement plaster and leadwork to be removed and made good with lime render

Generally:

Bath stone colour and texture etc to match existing.
Red hatch is where new bath stone facing is required.

Rainwater Goods - all existing cast iron works to be retained in place unless full salvage is possible, if so all cast iron works including pipes, hoppers and brackets are to be prioritised on the south elevation.
