

Email in regards to 17 Maylands Drive,

From Mr Shanker to Neighbours,

I have spoken to both occupiers from number 12 (Neil Sebastian) and 14 (Roy) Colndale Road, with regards to the height and presentation of the rear outbuilding. Roy from number 14 did not realise that the ground level was as high as it is due to both of us living on a Hill, I have reassured and informed him of the plan to place a section of trellis on the rear fence to avoid the view from the tops of people's heads as his dog starts to bark. Also that I would be placing trellis the rear side of the outbuilding direct onto the wall which will cover most if not all the brick wall to the rear of the outbuilding. This would incorporate climbing vines and flowers, much more pleasing to the eyes and in keeping with its surroundings. He was happy with this plan.

Also speaking to Neil from number 12, he stated that the outbuilding was on no great concern to him as the tree's in his garden covered the view of the rear outbuilding. I informed him of the above plan to incorporate trellis on the fence and rear wall of the outbuilding. He stated he would be happy with this option and again he has no reservations with the building as it is.

I have attempted to communicate with Mr Solanki at number 15 Maylands Drive, this is to no avail, due to him not being on speaking terms. Dianne at number 17 Maylands Drive may be away as there is no answer, I will keep trying.

I have also reassured both Neil and Roy the purpose of the outbuilding is for a gym/playroom for my family only. It is not nor has it ever been considered to be rented out to any person. They like many others have been mis-informed regarding this. Mr Solanki and Diane are already aware of this as I have informed them many times when I have seen them.

When you submit the application to planning can this email be added for consideration.

Thank you.

S Shanker
