Following the development, will the dwellinghouse be used within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

☒ Yes ☐ No

If you have answered No above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

5. Description of Proposed Works, Impacts and Risks

Please describe the proposed development, including:

- details of any works proposed;
- the external appearance of the dwellinghouse, including the design and architectural features of the principal elevation (and any side elevation that fronts a highway)

The Proposal is to form two additional storeys on an existing dwellinghouse. The Proposal is for over the principle part of the building only. The proposed two floors will match the existing, with painted white render and black window frames, styles to match. The copper `verde` roof will be raised the required 5.7 metres. No new windows are proposed to the sides.

What is the current height of the dwellinghouse: (measured externally from ground level to the highest part of the roof)	7.765	metres
What will be the height of the dwellinghouse once the additional storeys are added: (measured externally from ground level to the highest part of the roof)	13.465	metres

5. Description of Proposed Works, Impacts and Risks (continued)

Please provide details of the impacts on the amenity of any adjoining premises including overlooking, privacy and the loss of light and how these will be mitigated:

There will little or no impact on the adjacent neighbours, numbers 229 and 233. Number 229 is 3m beyond our rear wall, and Number 233 is 1m beyond our rear wall. No overlooking will occur, since no side windows are proposed. The properties in Parkway are some 53m away. Our rear garden is heavily shielded aiding privacy for all, by many large trees, some which have TPO's. On both sides we have 3m wide Single-Storey addition; and so does Number 229. Number 233 is a further 3m+ from us. So there is ample open visual gaps through both sides to retain the existing light. Both 229 and 233 dwellings have their main sources of light from the rear and front. Lastly, because Number 231 is painted white, light is reflected very well.

Please provide details of any air traffic and defence asset impacts and how these will be mitigated:

As mentioned, we have some large trees in the back garden and in neighbouring gardens. The Eucalyptus and Pine trees are a great deal higher than the resultant Building. Furthermore, there are many more trees in Parkway and indeed in Court Park beyond. There is a large oak tree at the front also. Lastly, our property is more than the 1.5 miles away from the nearest Airport.

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

Note that these are identified in the Directions Relating to Protected Views dated 15 March 2012 issued by the Secretary of State.

N/A. This building is not near any protected views.

6. Checklist

Please read the following checklist to make sure you provide all the required information in support of your proposal.

The information provided should include all the details necessary for the Local Planning Authority to determine if the proposal complies with permitted development legislation, and if its prior approval should be granted.

If sufficient information is not provided the Local Authority can either request it, or refuse the application.
