Quotation QA265316-1
Ref: Orbit System 800mm High, Obscured Glass

Dear Mr Singh,

Thank you for contacting us and offering us the opportunity to quote for your project.

As well as the obvious 'wow' factor, our Juliet balconies and Hybrid® Glass Balustrades come with a 10-year guarantee on the handrail and bottom track finishes. And, for your peace of mind, our products have been tested to meet British Standards. We can also supply generic structural calculations for inspection by yourself or your Building Inspector if required.

For the Juliet balconies and/or balustrades included in the table below the price/s indicate our quotation for the supply only of our proprietary Hybrid® Balustrade System, fabricated "ready to install". The price includes all the profiles, posts, brackets, rubber gaskets and system accessories. Fixings (i.e. screws/bolts for fixing to the wall/floor/structure) are not included. Glasses will be polished on the visible heights.

Some Balustrade runs may require vertical posts; these are made from a primary structural steel post that must be firmly secured to the balcony structure/building. The posts can be supplied with or without a plate depending on the required method of fixing. These will be, on final installation, covered by the system aluminium sheathing post and so be hidden. Corner posts are not required with our Hybrid® Balustrading systems. The handrails should be fixed back at each end to the walls or will require an end post. Balustrade runs are quoted at standard height and as horizontal runs only; i.e. not sloping, shaped or raked sections.
