GENERAL NOTES

Check and confirm that this drawing is the most current issue/revision
Information noted 'in abeyance' or shown in inverted cloud should not be used for instruction.
This drawing should be read in conjunction with Architectural Specification.
This drawing is to be checked and discrepancies should be highlighted to the designers immediately.
This drawing is to be read in conjunction with all relevant Structural Engineer's, MEP Engineer's, Civil Engineer's and Landscape Architect's drawings, specifications and reports.
Non-architectural elements indicated on this drawing are for the purpose of design coordination Only and not for construction.
This drawing is to be read in conjunction with the fire engineers drawings and Fire strategy. All fire barriers are to be installed in accordance with their report, drawings and specifications.
The contractor is to check and clarify all levels and dimensions on site and bring to the attention of the designer any variations or deviations asking for written confirmation before commencing with works onsite.
All materials should be fit for the purposes for which they are intended.
The contractor shall take into account everything necessary for the proper execution of the works and to the satisfaction of the Local Authority Building Surveyor/Approved Inspector/Health & Safety Executive, whether or not indicated on the drawing or specification.

HEALTH AND SAFETY NOTES:

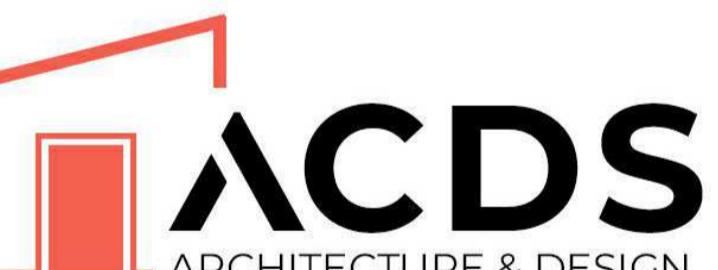

The contractor is to staunchly observe the health and safety Regulations in respect of manual handling during contruction and the installation of materials. Method statements are to be provided for the safe lifting and manouver of elements in excess of 21Kg. Where possible mechanical equipment should be considered.
