

**Bin Store Specification for Erection of a three storey building to create 2 x semi-detached dwellings with associated car parking and installation of vehicular crossover.**

**Application Ref: 68085/APP/2023/648**

**Wooden Garden Triple Wheelie Bin Store Storage for 3 Bins; 1.99m x 1.25m**

**Product information**

Relax and enjoy your outdoor leisure time in the garden this year without the unpleasant sight of your wheelie bins. With 3 attractive, curved opening lids this triple bin store is designed to neatly hide away and cover up three standard size wheelie bins. Featuring practical top hinged lids and side hinged front doors for easy access. Each top hinged lid includes a securing chain that can be attached to the bin lid allowing the lid off the bin to open when you lift the storage lid. The chain is attached by threading it through the handle of the bin lid and then attaching it to the store lid and can be easily removed when it's bin day. The natural wooden frame will compliment any garden and outdoor setting and the slatted design helps promote air flow and maintain a clean area. The wood is ACQ treated for durability and longevity. Supplied flat packed and self-assembly is required. Product Dimensions External dimensions: 199m wide, 125cm high at the back, 113cm at front. Internal Dimension: Load space 64cm wide, 122cm high, 79cm front to back Takes up to 3 x 240 litre bins.

- Assembly required
- Guarantee of 1 year

## Features and benefits
