To: Katherine Mills <kmills2@hillington.gov.uk>, Alison Wenman <Alison@glorcroft.co.uk>, Lee Jackson <lee@glorcroft.co.uk>

Good Morning

I can confirm that the windows are to be traditionally constructed and will not have stuck-on glazing bars and that they will match the proportions of the existing windows and will not damage the internal shutters.

I have copied in the contractor for their records, but I know this will be listed on the conditional approval if we are successful.

Kind Regards

Russell G K Barnes

Dear Mr Barnes,

Thank you for your email. Please could you confirm that the windows will be traditionally constructed without "stick-on" glazing bars, to match the proportions of the existing windows and without damage to the internal shutters. The remainder of the Conservation Officer's comments can be dealt with through a condition.

Kind regards

Katherine Mills

Good Morning

Is it possible to make your request a pre-commencement condition as we are not the contractor/manufacture. They do this type of work regularly and will match the system as per existing once they have visited site and detailed the replacement unit.

Kind Regards

Dear Mr Barnes,

I am the case officer for the above application. The Council's Conservation Officer has no objection to the replacement windows but requires the provision of a glazing bar detail. This needs to be a traditional glazing bar with individually glazed Slimlite units and these need to be held in with putty, not timber moulded sections.

Please could you also provide an indicative existing window detail, so that we can be sure the depth of the window and the proportions of the detailing match, or are as close as possible, to the existing windows.

Kind regards

Katherine Mills
