2.0 Planning Considerations

The application seeks a certificate of lawful development for the conversion of roofspace to habitable use to include a rear dormer and 1 front rooflight.

The submitted plans confirm that the proposal would:

i) Not exceed the height of the highest part of the roof,
ii) Not extend beyond the plane of any existing roof slope which form part of a principal elevation of the dwelling house and fronts a highway,
iii) Not exceed the cubic content of the original roof space by more than 40 cubic metres,
iv) Have materials that match the existing dwelling and the rear dormer would be inset by 200mm from the eaves.
v) The rooflights would not project more than 150mm beyond the roof plane

The site does not lie within a Conservation Area and the permitted development rights have not been removed. As such the proposal falls within the conditions set out in classes B and C of the GPDO and the application is recommended for approval.
