e stated. Validate all measurements on site.
repancies between the drawings and other documents should be brought to the
of the engineer.
wing is not an installation drawing. It is the Contractors responsibility to make final
ited installation shop drawings.
ents of this drawing shall be read in conjunction with the current revisions of
ural, Civil, Structural, Mechanical, Electrical, Security, Telcoms drawings and all
ections of the specifications.

This architectural site plan shows a building complex with a north arrow in the top right corner, a scale bar at the top, and a property number '12402' with a directional arrow at the bottom. The plan includes a main building with a hatched roof, a taller rectangular structure to its right, and several smaller rectangular plots to the right of the main building. A large rectangular plot is located to the left of the main building. A curved line labeled '8' is shown near the top left. A circular arrow at the bottom indicates a clockwise direction, with the number '2' inside. The property number '12402' is enclosed in a circle at the bottom center.

Existing South Elevation

1 : 200

This architectural cross-section diagram illustrates the vertical layout of a building. The levels are indicated by horizontal dashed lines. The diagram shows a multi-story structure with various rooms and a central staircase. On the left, a vertical scale shows the following levels from bottom to top:

- Control Room RF level (12110)
- Level Roof (10000)
- Level 01 (4000)
- Level 00 (0)

On the right, another vertical scale shows levels 1, 2, 3, and 4, with a specific point labeled 12400. The base of the building is labeled "Existing Car Park".
