Dear Sir/Madam

Could you please create a new log/complaint against the following address for enforcement team. (address: 1D KENT GARDENS, REF: **71958/APP/2016/2145**)

This property doesn't have PD right and therefore doesn't have any permission to have any kind of fences without planning permission. As such, the existing wooden fences were built without any permission from Hillingdon council on September 2015 and there was an enforcement action against of it. To overcome this issue, they need to remove the fences completely or alternatively they can replace the existing wooden fences with new fences by having following criteria:

- 1) 1.2 m high hoop top railing
- 2) 20mm iron railings to manufactures details
- 3) black painted finish
- 4) 0.3 m gap between see through fences

It is important to mention that there are some fences at eastern side of the house, No 2 Coleridge Drive, which will help you to understand my point.

If you have any question, please let me know

Thanks

Hoda Sadri
