

Precedent images 01

Existing timber cladding to be painted black, see above.
Patch repair to existing timber cladding to reflect the above timber clad barn aesthetic.
Where the existing building currently has no timber cladding (i.e exposed concrete / render, infill blockwork / brickwork finishes), this is to be covered with black timber cladding to tidy up the overall building aesthetic

RAL 7038
Window frame colour
Painswick grey

flat profile proprietary windows

Note, this image is not in painswick grey, but shows R7 profile. For details of flat profile window, see accompanying manufacturers technical detail

Precedent images 02

All existing windows to be either refurbished if possible or replaced with proprietary double glazed flat profile glazing units. Refurbished windows to be painted light grey RAL 7038, or colour Painswick Grey for any replaced proprietary glazing units. The manufacturers of the flat profile glazing units to be The Residence Collection, and the product to be from the R7 range.

Precedent image 03

Velux top hung roof light with recessed flashing, 780x1180mm. Colour, black. For details see accompanying manufacturers technical detail

Precedent image 04

Black gutter, downpipes, fascias and soffits

NOTES ON FINISHES:-

Existing roof finish to remain unaltered and patch repaired with material to match existing where possible

Where there is currently exposed concrete finsih on the exitsing building, this is to be covered with black painted timber cladding, see above precedent images

See landscaping layout for landscaping materials and configurations

Management Plan

A management company will be appointed to oversee the parking, operational and landscaping maintenance of the site. The managament company will be appointed prior to sale of properties.

Each unit is provided with a garage and a parking space.

Notes
This document and its design content is copyright ©. It shall be read in conjunction with all other associated project information including models, specifications, schedules and related consultants documents. Do not scale from documents. All dimensions to be checked on site. Immediately report any discrepancies, errors or omissions on this document to the Originator. If in doubt ASK.
####

In addition to the hazards/risks normally associated with the types of work proposed, it is assumed that all works on this drawing will be carried out by a competent contractor working, where appropriate, to an appropriate method statement.
