Proposed velux rooflights

Existing single storey to be demolished and made two storey

Proposed materials to match existing

Proposed single storey side extension

This architectural elevation drawing shows a proposed two-story house. The main structure features a gabled roof with two small square rooflights. The left side of the house has a large garage door and a window above it. The right side has a front entrance with a door and a large window. A side extension is shown on the right. Annotations indicate that the existing single storey section on the left is to be demolished and replaced with a two-storey section, and that the proposed materials will match the existing ones. A side extension is also shown on the right.

Proposed lead dormers

Proposed materials to match existing

Existing single storey to be demolished and made two storey

Proposed single storey side extension

Existing 7m high elder tree

Existing 20m high ash tree

Proposed raised patio at existing floor level

Proposed rear dormers

Proposed two storey side extension

Existing single storey to be demolished and made two storey

Existing 3 - 5m high laurel hedge

Existing 4m high lilac tree

Existing 5m high ivy hedge

Existing 5m high elder tree

Existing 6m high elder tree

Proposed flat velux rooflights

Proposed single storey side extension

Existing 6m high ornamental cherry tree

Existing 6m high ornamental cherry tree

Existing 2m high laurel hedge

Proposed crown roof above
