For the attention of **Mr Ian Thynne**

Dear Ian,

**HIGH SPEED RAIL (LONDON – WEST MIDLANDS) ACT 2017**  
**LONDON BOROUGH OF HILLINGDON: FLOOD COMPENSATION AREA ATTENUATION**  
**POND AND FOOTBRIDGE WEST RUISLIP**  
**SUBMISSION No LBH.PS.10009 – PLANS & SPECIFICATIONS**

---

We wish to provide a clarification over the submitted Schedule 17 application for the Flood Compensation Area, Gatemead Attenuation Pond, River Pinn Realignment and Footbridge (LBH Reference: 72870/APP/2022/2692) with respect to the submitted Footbridge General Arrangement drawing (1MC04-SCJ\_SDH-BR-DGA-SS05\_SL07-530111Rev P01). This drawing contains details of the proposed new footbridge over the realigned section of the River Pinn; the footbridge is for approval under Schedule 17 Part 1 paragraph 2 as a 'building work'.

The plans and specification Proforma correctly identifies the footbridge general arrangement drawing (1MC04-SCJ\_SDH-BR-DGA-SS05\_SL07-530111 rev P01) as '**For Approval**' however the title block and red clarification text of said drawing incorrectly states that the drawing is 'For Information'.

A revised version of the said Footbridge General Arrangement drawing (revision PO1.2) is attached with this clarification letter for approval. Please see summary table below clarifying document for approval:

| 1 <sup>st</sup> Submission (26/08/2022)  | Attached submission for approval (17/10/2022)  |
