

— ANS Living Wall System

Maintenance Schedule for Union Park

ANS Living Wall System

Yearly maintenance schedule for the external ANS Living Wall for Union Park

Monthly inspection visits for the following:

- Inspect irrigation
- Check no failing plants
- Ensure even distribution of irrigation
- Pest control
- Check for air borne weeds
- Sweep hard standing
- Prune as necessary localised
- Pest disease control
- Apply insecticide as necessary
- Dead head and leaves as necessary

Horticultural husbandry visits

Horticultural husbandry visits to Union Park are carried out once or twice a year. These visits involve a full trim, pruning, dead-heading, plant replacements if necessary and calibration of the irrigation system

Access:

Cherry Picker / Scissor lift

Some degree of flexibility must be allowed for as some seasons require more labour than others.
