Appendix C Discovery Strategy Declaration

Site Address: Platinum Jubilee Leisure Centre, Rowlheys Place, West Drayton.

The Remediation Strategy Implementation Plan (ref: C22007-RSIP-001-v1, March 2022) makes it apparent that we should be aware of the likelihood of discovering contaminants. Awareness and alertness to the discovery of contaminants would be required whether the Investigation report was provided or not.

The following Discovery Strategy will therefore be implemented to demonstrate compliance with the above referenced Report.

All staff, but particularly operatives undertaking groundworks activities will be given a site induction and toolbox talks on the nature and principal findings of the previous investigations, during which they will be made aware of the need to be observant of anything, discovered by sight, smell or through the health and wellbeing of themselves or their colleagues, which may be considered contaminated.

As guidance, operatives will be instructed to take care and be aware of contaminants that could be discovered by;

- sight (e.g., such as fibrous materials, substantial amounts of ash and soil of any unusual discolouration)
- smell (e.g., fuel, oil and chemical type odours or unusual odours such as sweet, or fishy odours) or
- wellbeing (e.g., light-headedness and/or nausea, burning of nasal passages and blistering or reddening of skin due to contact with soil) of themselves or their colleagues.

In the event of any discovery of potentially contaminated soils or materials, this discovery should be quarantined and reported to the Site Manager or other person(s) responsible for the project who will provide instructions, as necessary.

In particular, the location, type and quantity of the contaminant(s) will be recorded, and the Local Authority and a competent and appropriate third-party Engineer/Environmental consultant will be notified. Where necessary, approval will be obtained from the Local Authority before any proposed mitigation action is undertaken on or in the contaminated ground.

This Discovery Strategy will remain on site at all times and is to be displayed on the site Health and Safety Notice Board and in the Site Canteen where it can be seen and is accessible to all site personnel, whether undertaking groundworks or otherwise.

---END OF DISCOVERY STRATEGY---

POST COMPLETION OF GROUNDWORKS – STATEMENT OF FINDINGS

During the groundwork activities, I understand the above Discovery Strategy was in operation, and I am not aware of any unexpected contamination being identified.
