Subject: Re: 74 Addison Way, Northwood, HA6 1SZ - 75147/APP/2019/3304

Dear Cris,

I do appreciate the feedback.

We did also have a duty planning meeting with Liz Arnold, who dealt with couple the other applications on the road (all same properties) and she advised that our proposal was compliant.

James had mentioned that the neighbouring property may be slightly different and hence why that was approved, unless we could provide further evidence - which we have provided as part of this application.

Hence why the statement reads like an appeal, because we wanted to clarify that those set of houses are all identical, and the council have determined other applications on the road, and more importantly the neighbouring property as acceptable, and we are obviously submitting the exact same as the neighbouring.

We believe with the additional information provided as part of this application (which just highlights and clarifies some of the points) would help show that our proposal does not impact the neighbouring, whilst all the houses are same.

We agree to the extension of time to 23.11.20.

Kind Regards

Bimal Ruparelia
