

Proposed Floor Plans 1:50 @ A1

Scale Bars - shown in metres

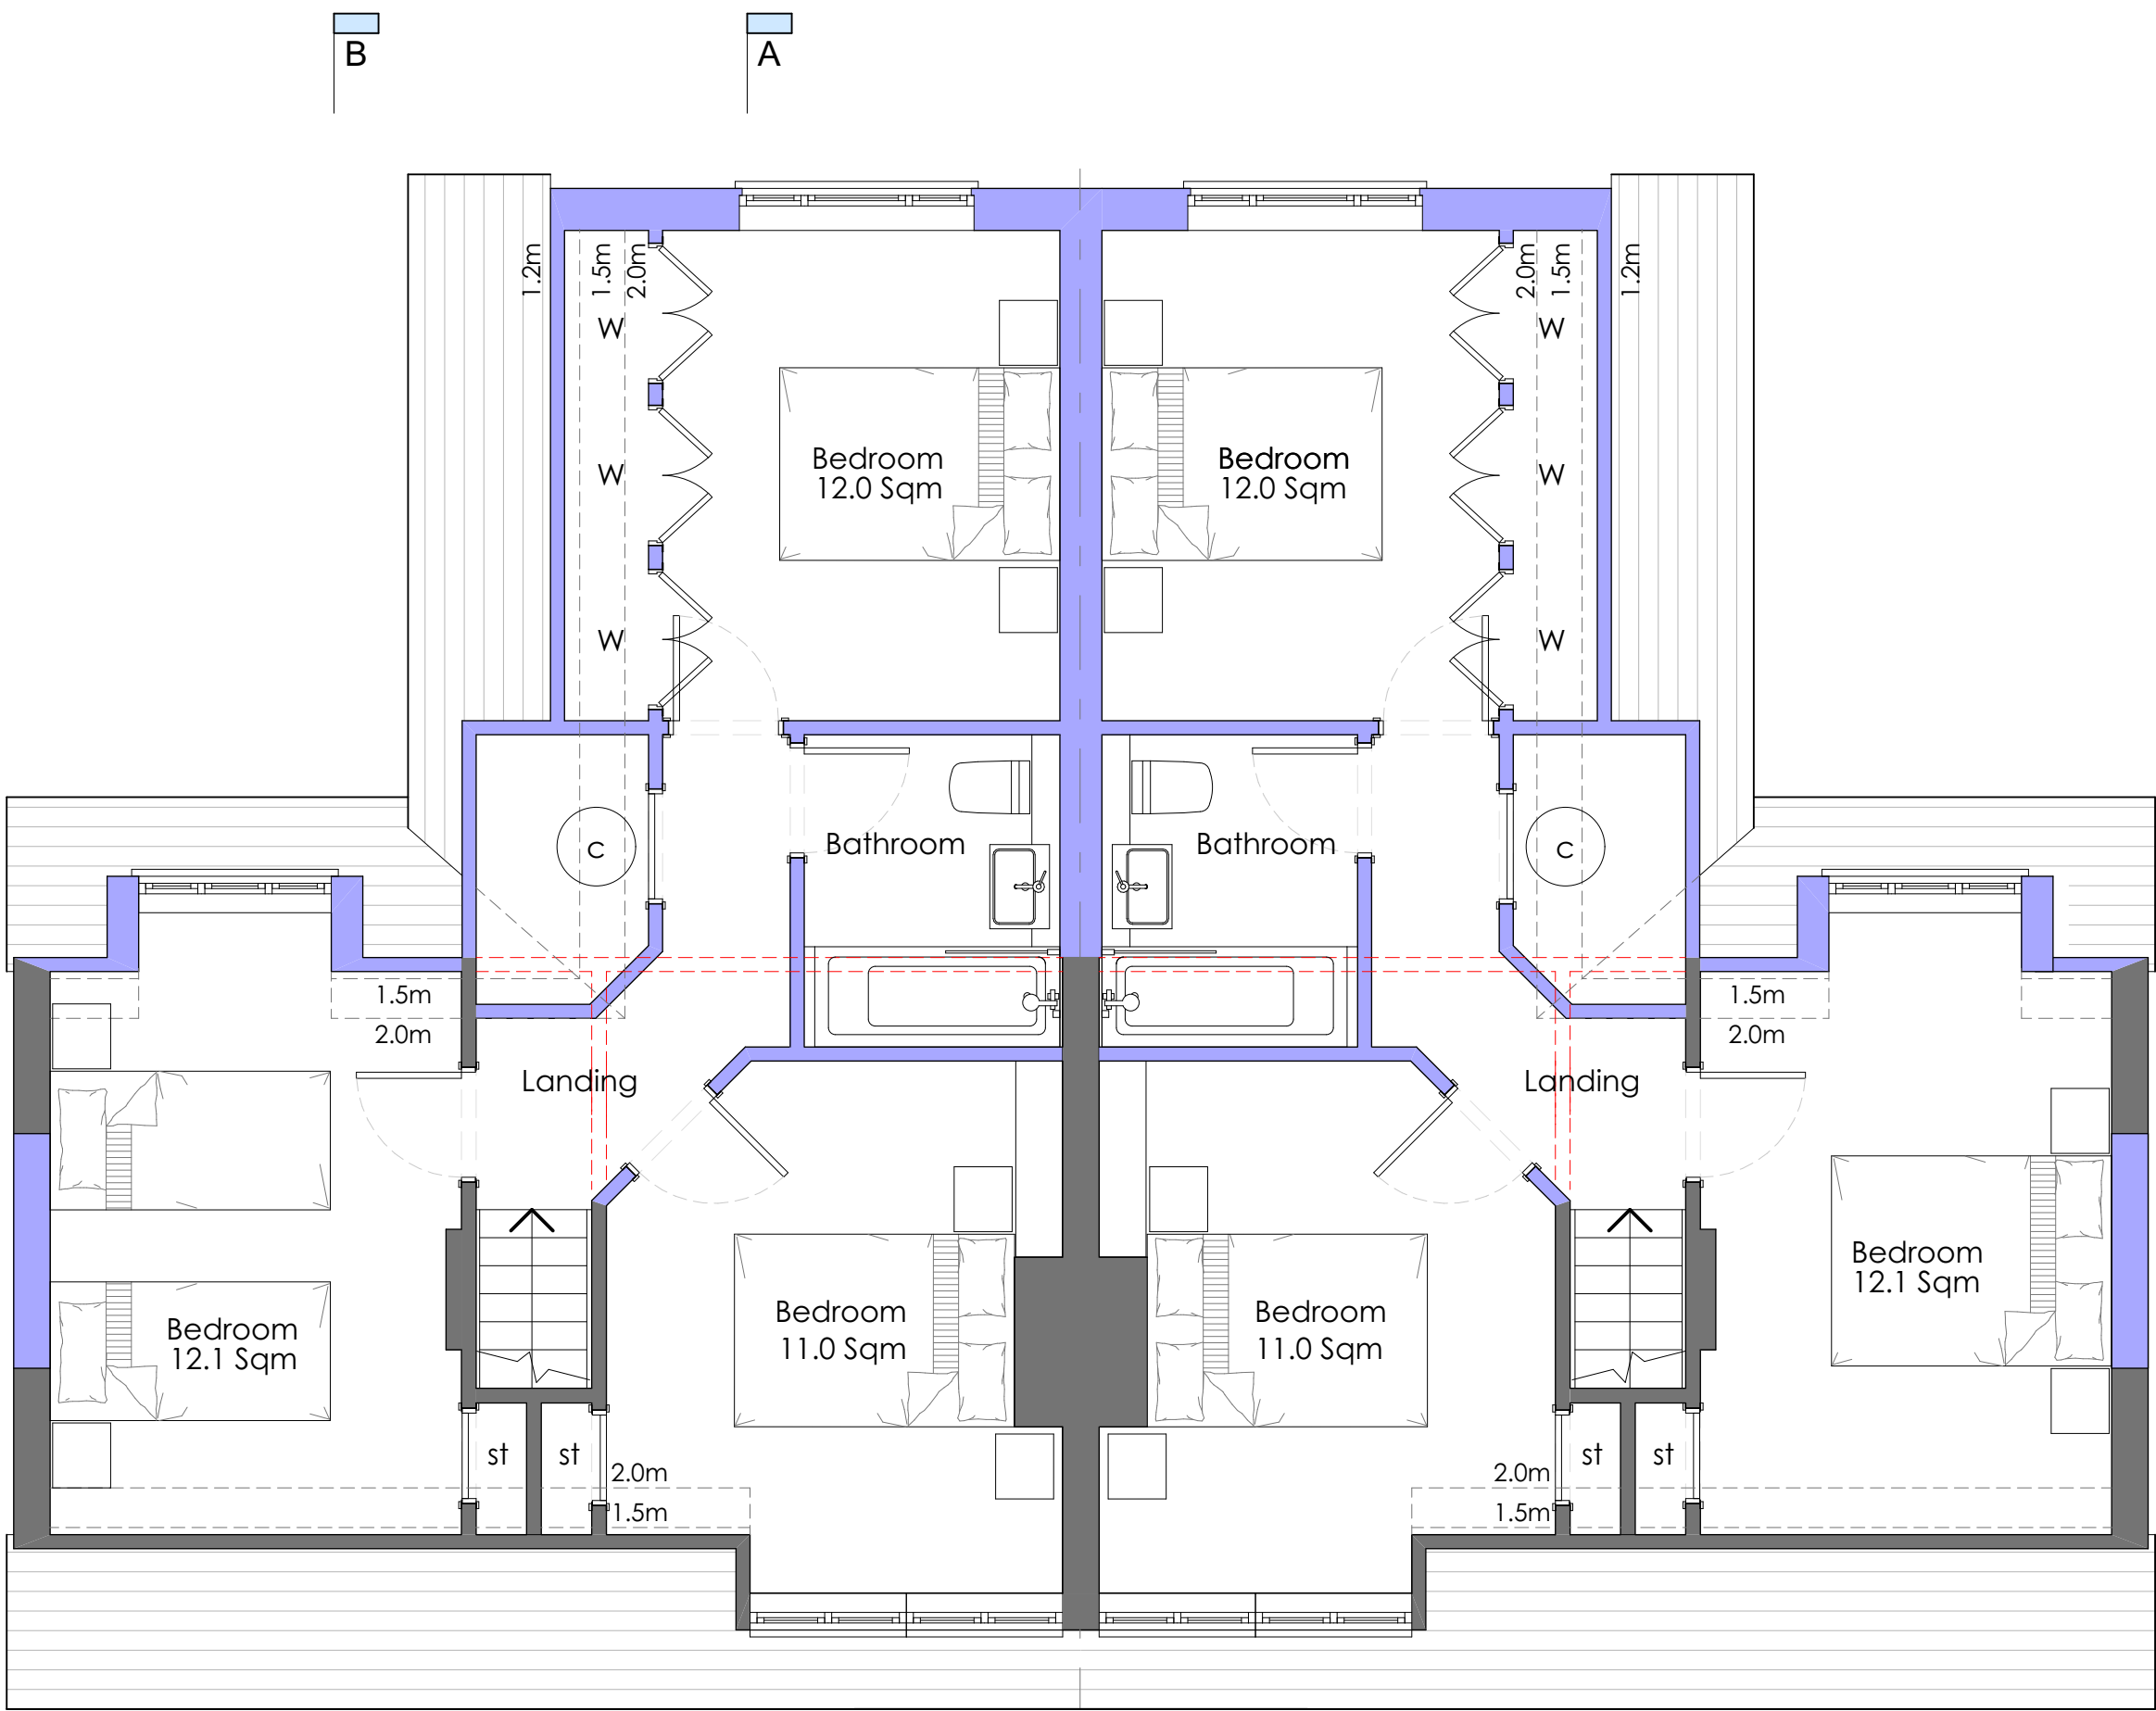

All room areas
measured to 1.5m headroom

Existing Drains
Further investigation is required regarding location of existing sewers
A build over agreement from Thames Water may be required if the sewer is within three metres of a pipe serving more than one property (public sewer) or is within one metre of the point where a pipe serving only one property crosses your boundary – where it becomes a public lateral drain. A self-certified build over agreement may not be accepted unless the sewer can still be accessed and maintained via a neighbour's garden or can be rodded from other manholes.

Ground Floor Plan

No 31 Green Walk has not been surveyed. It has been mirrored without an accurate survey to facilitate the design of various feasibilities.

First Floor Plan

Legend

- Existing walls
- Existing walls removed
- Proposed new walls

Do not scale drawing - Plans have been prepared from hand measured survey and accuracy cannot be guaranteed
