

## DELEGATED DECISION

- Please select each of the categories that enables this application to be determined under delegated powers
- Criteria 1 to 5 or criteria 7 to 9 must be addressed for all categories of application, except for applications for Certificates of Lawfulness, etc.

**APPROVAL RECOMMENDED: GENERAL**

Select Option

1. No valid planning application objection in the form of a petition of 20 or more signatures, has been received ☐
2. Application complies with all relevant planning policies and is acceptable on planning grounds ☐
3. There is no Committee resolution for the enforcement action ☐
4. There is no effect on listed buildings or their settings ☐
5. The site is not in the Green Belt (but see 11 below) ☐

**REFUSAL RECOMMENDED: GENERAL**

6. Application is contrary to relevant planning policies/standards ☐
7. No petition of 20 or more signatures has been received ☐
8. Application has not been supported independently by a person/s ☐
9. The site is not in Green Belt (but see 11 below) ☐

**RESIDENTIAL DEVELOPMENT**

10. Single dwelling or less than 10 dwelling units and/or a site of less than 0.5 ha ☐
11. Householder application in the Green Belt ☐

**COMMERCIAL, INDUSTRIAL AND RETAIL DEVELOPMENT**

12. Change of use of retail units on site less than 1 ha or with less than 1000 sq m other than a change involving a loss of A1 uses ☐
13. Refusal of change of use from retail class A1 to any other use ☐
14. Change of use of industrial units on site less than 1 ha or with less than 1000sq.m. of floor space other than to a retail use. ☐

**CERTIFICATE OF LAWFULNESS**

15. Certificate of Lawfulness (for proposed use or Development) ☐
16. Certificate of Lawfulness (for existing use or Development) ☐
17. Certificate of Appropriate Alternative Development ☐

**CERTIFICATE OF LAWFULNESS**

18. ADVERTISEMENT CONSENT (excluding Hoardings) ☐
19. PRIOR APPROVAL APPLICATION ☐
20. OUT-OF-BOROUGH OBSERVATIONS ☐
21. CIRCULAR 18/84 APPLICATION ☐
22. CORPSEWOOD COVENANT APPLICATION ☐
23. APPROVAL OF DETAILS ☐
24. ANCILLARY PLANNING AGREEMENT (S.106 or S.278) where Heads of Terms have already received Committee approval ☐
25. WORKS TO TREES ☐
26. OTHER (please specify) ☐

The delegation powers schedule has been checked. Director of Residents Services can determine this application.

**Date Plans received :**    17/12/2019

**Date(s) of Amendment(s):**

**Date Application Valid:** 17/12/2019

## 1. SUMMARY

Planning permission is sought for the erection of a detached building to accommodate office accommodation above existing parking spaces along the northern site boundary. This building is in addition to the existing detached building on the site.

Although this additional proposed building, also located within the rear car park, would increase the built-up appearance of the site, the Planning Inspectorate concluded that a similar building would not have any detrimental impact on the character and appearance of the site and surrounding area, or on the visual character and appearance of the locality and setting of the adjacent Conservation Area and Area of Special Local Character.

The Planning Inspectorate also concluded that there would be no issue with regard to loss of privacy to occupiers of the flats within Pembroke House.

Therefore it is considered that the proposal would comply with Policies DMHB 5 and DMHB 11 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020)

The application is recommended for approval.

## 2. RECOMMENDATION

**APPROVAL subject to the following:**

1                      COM3                      Time Limit

The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

REASON

To comply with Section 91 of the Town and Country Planning Act 1990.

**2 COM4 Accordance with Approved Plans**

The development hereby permitted shall not be carried out except in complete accordance with the details shown on the submitted plans, numbers P.02 A, P.03 A, P.04 A, P.05 A, P.06 A and P.07 A and shall thereafter be retained/maintained for as long as the development remains in existence.

**REASON**

To ensure the development complies with the provisions Hillingdon Local Plan Parts 1 (November 2012) and 2 (January 2020) and the London Plan (2016).

**3 RES7 Materials (Submission)**

No development shall take place until details of all materials and external surfaces, including details of balconies have been submitted to and approved in writing by the Local Planning Authority. Thereafter the development shall be constructed in accordance with the approved details and be retained as such.

Details should include information relating to make, product/type, colour and photographs/images.

**REASON**

To ensure that the development presents a satisfactory appearance in accordance with Policy DMHB 11 of the Hillingdon Local Plan: Part 2 - Development Management Policies (January 2020).

**4 RES13 Obscure Glazing**

The first floor side window(s) in the western elevation shall be glazed with permanently obscured glass to at least scale 4 on the Pilkington scale and be non-opening below a height of 1.8 metres taken from internal finished floor level for so long as the development remains in existence.

**REASON**

To prevent overlooking to and between the adjoining office properties in accordance with policy DMHB 11 of the Hillingdon Local Plan: Part 2 - Development Management Policies (2020).

**5 NONSC Non Standard Condition**

The car parking to be provided with the development hereby approved shall be kept available for the parking of vehicles at all times.

**REASON**

To ensure that the development complies with Policies DMT 1, DMT 2 and DMT 6 of the Hillingdon Local Plan: Part 2 - Development Management Policies (January 2020)

**6 NONSC Non Standard Condition**

No development above ground level shall take place until details of covered and secure cycle storage have been submitted to and approved in writing by the Local Planning Authority. The facilities shall be provided in accordance with the approved details prior to the first occupation of the development and thereafter permanently retained.

**REASON**

To ensure that the development complies with Policies DMT 1, DMT 2 and DMT 6 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020)

**1**            **I15**                    **Control of Environmental Nuisance from Construction Work**

Nuisance from demolition and construction works is subject to control under The Control of Pollution Act 1974, the Clean Air Acts and other related legislation. In particular, you should ensure that the following are complied with:-

A. Demolition and construction works which are audible at the site boundary shall only be carried out between the hours of 08.00 and 18.00 hours Monday to Friday and between the hours of 08.00 hours and 13.00 hours on Saturday. No works shall be carried out on Sundays, Bank or Public Holidays.

B. All noise generated during such works shall be controlled in compliance with British Standard Code of Practice BS 5228:2009.

C. Dust emissions shall be controlled in compliance with the Mayor of London's Best Practice Guidance 'The Control of dust and emissions from construction and demolition.

D. No bonfires that create dark smoke or nuisance to local residents.

You are advised to consult the Council's Environmental Protection Unit ([www.hillingdon.gov.uk/noise](http://www.hillingdon.gov.uk/noise) Tel. 01895 250155) or to seek prior approval under Section 61 of the Control of Pollution Act if you anticipate any difficulty in carrying out construction other than within the normal working hours set out in (A) above, and by means that would minimise disturbance to adjoining premises.

**2**            **I47**                    **Damage to Verge - For Council Roads:**

The Council will recover from the applicant the cost of highway and footway repairs, including damage to grass verges.

Care should be taken during the building works hereby approved to ensure no damage occurs to the verge or footpaths during construction. Vehicles delivering materials to this development shall not override or cause damage to the public footway. Any damage will require to be made good to the satisfaction of the Council and at the applicant's expense.

For further information and advice contact - Highways Maintenance Operations, Central Depot - Block K, Harlington Road Depot, 128 Harlington Road, Hillingdon, Middlesex, UB3 3EU (Tel: 01895 277524).

For Private Roads: Care should be taken during the building works hereby approved to ensure no damage occurs to the verge of footpaths on private roads during construction. Vehicles delivering materials to this development shall not override or cause damage to a private road and where possible alternative routes should be taken to avoid private roads. The applicant may be required to make good any damage caused.

**3**            **I59**                    **Councils Local Plan : Part 1 - Strategic Policies**

On this decision notice policies from the Councils Local Plan: Part 1 - Strategic Policies appear first, then relevant saved policies (referred to as policies from the Hillingdon Unitary Development Plan - Saved Policies September 2007), then London Plan Policies (2016). On the 8th November 2012 Hillingdon's Full Council agreed the adoption of the Councils Local Plan: Part 1 - Strategic Policies. Appendix 5 of this explains which saved policies from the old Unitary Development (which was subject to a direction from Secretary of State in September 2007 agreeing that the policies were 'saved') still apply for development control decisions.

**4**            **I70**                    **LBH worked applicant in a positive & proactive (Granting)**

In dealing with the application the Council has implemented the requirement in the National Planning Policy Framework to work with the applicant in a positive and proactive way. We have made available detailed advice in the form of our statutory policies from the 'Saved' UDP 2007, Local Plan Part 1, Supplementary Planning Documents, Planning Briefs and other informal written guidance, as well as offering a full pre-application advice service, in order to ensure that the applicant has been given every opportunity to submit an application which is likely to be considered favourably.

### **3. CONSIDERATIONS**

#### **3.1 Site and Locality**

The application site is located on the northern side of Pembroke Road. It is situated immediately to the rear of Pembroke House and the application building is located in the north western corner of the car park to the rear of the main building. Pembroke House is a partly four and five storey detached property and former office building fronting Pembroke Road. All floors of the building have consent for their conversion to residential under either the prior approval process or planning/appeal; there are 19 residential units within Pembroke House.

The proposed development site falls adjacent to two heritage assets, the Ruislip Village Conservation Area and Midcroft, Ruislip Area of Special Local Character (ASLC). Although Pembroke House is a later addition within the street scene, to the rear of the site, it is characterised by well planted rear gardens. This part of the area includes housing development following the introduction of the railways in 1904 and a proposed urban expansion for a Garden Suburb. The immediate surrounding area is characterised by inter and post war properties and the rear of the commercial units on Ruislip High Street.

The site lies within Ruislip Town Centre as identified within the Hillingdon Local Plan: Part Two - Saved UDP Policies (November 2012).

#### **3.2 Proposed Scheme**

Planning permission is sought for the erection of a detached building to accommodate office space above existing parking along the northern site boundary. This proposal differs slightly from the previous scheme which was approved on appeal dated 26/4/2019 as the proposal would be located 6m from the existing building as opposed to 2m. The proposed detached building would be 12.525m in width as opposed to the previously approved scheme which was 9.97m in width but the height would remain the same at 5.4m. The building would provide 66.5sq.m of office space on the first floor. The building would be set above four existing parking spaces with 6m deep side walls. On the first floor, the building would be cantilevered 1m beyond the ground floor, resulting in a 6m deep first floor.

#### **3.3 Relevant Planning History Comment on Planning History**

There have been a number of planning applications of relevance to the consideration of this scheme and additionally appeals relating to enforcement notices and decisions, which form material considerations in the consideration of this application. The most relevant are summarised below:

Application ref: 38324/APP/2014/2680 refused consent for the erection of a two storey building to rear for use as office space and storage involving installation of railings and

gates. This decision was appealed and allowed in part in October 2015.

The appeal was allowed insofar as it related to the railings and gates along the boundary to the front and side of the site, as these were not considered to harm the character and appearance of the locality.

The appeal was dismissed in relation to the erection of the two-storey building in the rear of the site.

Application ref: 38324/APP/2016/407 refused consent for the erection of a detached building to accommodate refuse storage at ground floor and office accommodation above. This decision was appealed and allowed in November 2016 (Appeal Decision ref: APP/R5510/W/16/3155076)

Application ref: 38324/APP/2018/164 sought amendments to the plans approved by the Planning Inspectorate to allow for minor variations to the elevations, relocation of the refuse store and infilling of the undercroft to create a garage. Permission was granted in May 2018.

Application ref. 38324/APP/2018/2678 was for a new detached building, next to the existing building, and above four car parking spaces along the northern site boundary. This was refused permission on 18/1/2018 however this was subsequently granted on appeal dated 26/4/2019 (Appeal Ref: APP/R5510/W/18/3218019)

It is noted that there are 19 residential units within Pembroke House.

Conservation & Urban Design - no comments received

#### **4. Advertisement and Site Notice**

**4.1** Advertisement Expiry Date:- 26th February 2020

**4.2** Site Notice Expiry Date:- Not applicable

#### **5. Comments on Public Consult**

145 neighbouring properties and the residents association were consulted by letter dated 24/1/2020.

Two written representations have been received objecting to the proposal summarise as follows: -

Over development of the site  
Overlooking  
Incorrect boundaries

Officer response - the first two concerns raised above will be addressed within the body of this report. The last concern is not a material planning consideration and is a civil matter

#### **6. Local Plan Designation and London Plan**

The following Local Plan Policies are considered relevant to the application:-

Part 1 Policies:

PT1.BE1 (2012) Built Environment

PT1.HE1 (2012) Heritage

Part 2 Policies:

DMHB 4 Conservation Areas

DMHB 5 Areas of Special Local Character

DMHB 11 Design of New Development

DMHD 1 Alterations and Extensions to Residential Dwellings

DMT 1 Managing Transport Impacts

DMT 2 Highways Impacts

DMT 6 Vehicle Parking

LPP 7.4 (2016) Local character

LPP 7.5 (2016) Public realm

LPP 7.8 (2016) Heritage assets and archaeology

In addition:

## **7. MAIN PLANNING ISSUES**

### **7.1 Impact on the amenities of the occupiers of neighbouring residential properties**

Policy DMHB 11 B) of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020) states that development proposals should not adversely impact on the amenity of adjacent properties and open space.

Policy DMHD 1 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020) refers to alterations and extensions to residential dwellings however, it is considered that, as the proposal is essentially a two storey element within the vicinity of a residential building, the following could be relevant. It states that " two storey extensions should not extend into an area provided by a 45-degree line of sight drawn from the centre of the nearest ground or first floor habitable room window of an adjacent property and should not contain windows or other openings that overlook other houses at a distance of less than 21 metres "

That said, Appeal Decision ref. APP/R5510/W/18/3218019 dated 26/4/2019 stated that:

"From the evidence provided, it appears that the distance from the proposed building and the existing residential properties at Pembroke House is approximately 16.5m, which is below the 21.0m acceptable separation distance as set out in the Council's Supplementary Planning Document on Residential Extensions (SPD). However, this SPD relates to residential dwellings, whereas the proposal would be for a B1 office use and the overall amount of proposed office space would be very limited. In this case, I do not consider that the SPD guidance is relevant to the appeal proposal. It is necessary that I reach a view on privacy matters using my own planning judgement.

In this case, the proposed building would be separated from the flats at Pembroke House by an existing car park. In addition, the building would be used for office purposes and so

I consider that it is reasonable to take the view that it would not likely be occupied at all times of the day. In addition, the windows proposed for the elevation facing the flats in Pembroke House would be relatively small and limited in numerical terms.

When the above matters are considered as a whole, I do not consider that the appeal proposal would give rise to a significant loss of privacy for the occupiers of Pembroke House. Therefore the proposal would accord with the amenity aims of Policy BE24 of the UDP and the guidance set out in the Framework."

Consequently, in light of the recent appeal decision, Policy DMHD 1 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020) has now replaced the previous UDP Policy BE 24.

The proposed building would be located at the northern end of the existing car park serving Pembroke House. It would be situated against the boundary with 2a and 2b Brickwall Lane. No windows are proposed on the rear roof slope of the building and so there would not be an issue of overlooking of properties on Brickwall Lane.

The proposal would provide three tilt and turn windows at first floor level on the front elevation and two smaller top hung casement windows in the two side elevations. No windows are proposed in the rear elevation at first floor level. The side window on the eastern elevation would face onto garages at the rear of Neyland Court and so would not result in overlooking or loss of privacy. The window on the western side elevation would face onto the existing office building. Given the 6m distance between the two buildings, there could be an issue of overlooking of windows of the existing and proposed offices; the proposed side window would therefore need to be obscure glazed so that there would not be an issue of overlooking of the two office buildings. The orientation of the existing and proposed buildings would not have a significant impact on daylight/sunlight provision to the buildings.

Therefore it is considered that the proposal would comply with Policy DMHB 11 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020).

## **7.2 Impact on Street Scene**

The proposed development site falls adjacent to two heritage assets, the Ruislip Village Conservation Area and Midcroft, Ruislip Area of Special Local Character (ASLC). Policy DMHB 4 of the Hillingdon Local Plan: Part Two - (January 2020) states that new developments within and on the fringes of Conservation Areas should retain or enhance the character and appearance of the Conservation Area and those features which contribute to the special architectural qualities. Policy DMHB 5 of the Hillingdon Local Plan: Part Two - (January 2020) states that new developments should harmonise with the materials, design features, architectural style and building heights predominant in Areas of Special Local Character (ASLC)

Appeal Decision ref. APP/R5510/W/18/3218019 dated 26/4/2019 stated that with regard to the character and appearance, CA and ASLC: -

"The appeal site is located within the car park at the rear of Pembroke House. It is adjacent to, but not within the CA and ASLC. The CA was first designated in 1969, and the medieval village, based around Manor Farm, St.Martin's Church and the surrounding buildings form the core of the CA. Ruislip has a distinct identity that reflects its historical development.

Whilst the appeal site lies within the setting of the CA and ASLC, the car park itself is private, and public use is restricted. The design of the building, brick built with a mansard roof and hanging tiles would be very similar to the existing office building in the car park and would be considerably smaller than many of the existing buildings, including Pembroke House, that surround it.

Due to the private nature of its location to the rear of Pembroke House, it would not be conspicuous within the street scene setting of Pembroke Road. Furthermore, and owing to the position and scale of the development, I am satisfied that the development would not interfere with important views into or out of the CA or have a detrimental impact on its setting. Consequently, I do not consider that the development would look out of place in the locality or cause significant harm to the character and appearance of the area.

With regard to the ASLC, it is the rear gardens of the Brickwall Lane properties that set the context. These generally incorporate high vegetation screening along the boundary. There is no evidence to suggest that any of that screening would be affected by the proposals. The proposals are a significant distance from those properties, and as there are no windows proposed at the rear, privacy to the amenity spaces of the Brickwall Lane properties would not be compromised by the appeal proposals. In this context, I do not consider that any significant harm would be caused to the ASLC.

For the reasons outlined above, I conclude that the development would not result in any material harm to the setting of the CA or to the ASLC, and as such would not be in conflict with policies BE1 and HE1 of the London Borough of Hillingdon Local Plan Part One Strategic Policies (2012) (the LP) and Policies BE4, BE5, BE13, and BE19 of the London Borough of Hillingdon Local Plan Saved Unitary Development Plan Policies 2012 (the UDP), which, amongst other matters, seek to promote good design that harmonises with its surroundings and protect designated and locally registered heritage assets. Policy BE15 of the UDP is not directly relevant to this main issue in that it is concerned with extensions and alterations to existing buildings."

Although the current proposal differs slightly in both design and location from the previous scheme approved on appeal the revisions are not sufficient to warrant a departure from the Planning Inspectorate's findings.

The proposed building would therefore comply with Policies DMHB 4, DMHB 5 and DMHB 11 of the Hillingdon Local Plan Part 2: Development Management Policies (January 2020).

### **7.3 Traffic Impact/Pedestrian Safety**

Highways and Transportation commented as follows: -

#### **Site Characteristics & Background**

The site is located on the edge of Ruislip Town Centre in proximity of Ruislip LU station and a generous local bus service provision. The application site comprises of 19 residential units within the main building (Pembroke House) fronting Pembroke Road and a small office building located in the north-western corner of the site envelope. The proposal intends to create a new small office building (B1a - GIFA =66.5m<sup>2</sup>) on the north-eastern extremity of the site envelope located above 5 existing parking spaces of which 4 are to be retained. The total on-plot parking quantum at present equates to 23 spaces hence the number would fall by 1 space to 22. These spaces are predominantly allocated to the 19 existing residential units and current office use. The applicant advises that only 15 residents are in possession of 'parking permits' for the said number of on-plot spaces. Vehicular and pedestrian access arrangements would remain unchanged.

The local road network is extensively covered by parking controls and given the relatively good access to rail and bus services, the public transport accessibility level (PTAL) is rated at a level of 4 which therefore reduces dependency on the use of private motor transport.

In 2018, a previous application for a similar proposal (38324/APP/2018/2678) was refused, partly on insufficient on-plot parking grounds (non-standard refusal reason 3) as 2 on-plot parking spaces would be lost as a consequence of the scheme.

At the time of determination, there was no parking requirement for the scale of B1 (a) office proposal under the previously Saved UDP parking standard. The determination was subsequently appealed and the Planning Inspectorate did not support the highway related refusal resulting in the appeal being upheld.

It is noted there is a concurrent application for this site (38324/APP/2019/2798) which proposes to introduce an additional residential flatted studio unit within Pembroke House. For the purposes of determining the application subject of this appraisal, this 'parallel' application is not anticipated to substantively influence or prejudice any final conclusions.

#### Parking Provision

Local Plan Part 2 Policy DMT 6 requires that new development will only be permitted where it accords with the Council's adopted parking standards unless it can be demonstrated that a deviation from the standard would not result in a deleterious impact on the surrounding road network.

Under the newly adopted plan and given its small scale (GIFA - 66.5m<sup>2</sup>), the new unit would demand up to a single space provision under the parking standard with the loss of 1 existing on-plot space as a result of the proposal. This is unfortunate however the loss is considered de-minimis as any parking displacement onto the highway or within the site is highly unlikely given the extensive on-street parking controls which inherently act a deterrent to potential displacement impacts.

It is highlighted that the aforementioned Planning Inspectorate decision previously accepted the loss of a total 2 on-plot spaces for a similar proposal hence it is considered that as this application results in the loss of only 1 space with a parking requirement of up to 1 space, the net impact of the proposal is directly comparable in terms of reduced parking quantum. It is also noted that some spare car park capacity is evident as only 15 spaces are being utilised by residents of Pembroke House which infers that the on-plot site parking provisions can absorb a marginal loss in number.

It is recommended that the conditions imposed at the time of the prior appeal, should also be applied to this application, specifically conditions 4 & 6 respectively related to "The car parking to be provided with the development hereby approved shall be kept available for the parking of vehicles at all times" and " No development above ground level shall take place until details of covered and secure cycle storage have been submitted to and approved by the Local Planning Authority. The facilities shall be provided in accordance with the approved details prior to the first occupation of the development and thereafter permanently retained".

#### Vehicular Trip Generation

Local Plan Part 2 Policies DMT 1 and DMT 2 require the Council to consider whether the traffic generated by proposed developments is acceptable in terms of the local highway and junction capacity, traffic flows and conditions of general highway or pedestrian safety.

As a consequence of the small unit scale, vehicular trip generation uplift is predicted to be negligible and therefore does not raise any specific highway concerns or objection.

#### Operational Refuse Requirements

Refuse collection would be consequential to the existing office provision. A specific bin store in proximity of the public highway (Pembroke Road) within the site access road has been indicated. This location broadly conforms to the appropriate refuse 'collection distance' standard which stipulates that distances should not exceed 10m from a bin storage area to the point of collection on the public highway. There are no further observations.

#### Conclusion

The application has been reviewed by the Highway Authority who are satisfied that the proposal would not discernibly exacerbate congestion or parking stress, and would not raise any highway safety concerns, in accordance with Local Plan Part 2 Development Plan Policies DMT 1, DMT 2 & DMT 6 and Policies 6.3, 6.9, and 6.13 of the London Plan (2016).

### **7.4 Carparking & Layout**

Policy DMT 6 of the Hillingdon Local Plan: Part Two - Development Management Policies (January 2020) states that developments should comply with the Council's Car Parking Standards.

The application site comprises 19 residential units within the main building (Pembroke House) and an office building in the north-western corner of the car park.

The proposed building would be located within the car park at the rear of the site, along the northern site boundary. The car park has 21 parking spaces; 19 spaces for the residential units and two spaces for the existing office building (one of the spaces is a garage within the office building); it is noted that planning application ref: 38324/APP/2016/407, allowed at appeal, allocated one space to the office building.

The new position of the proposed building would be set above three parking spaces (19-21). Parking spaces Nos. 17 and 18 would remain in situ. Four parking spaces would be provided within an undercroft garage namely Nos 19 to 22

Appeal Decision ref. APP/R5510/W/18/3218019 dated 26/4/2019 stated that in relation to car parking, highway safety and free flow of traffic : -

"The existing parking provision is a private car park for residents. Based on the evidence provided, there are 21 existing spaces for 19 residents and the existing office building.

The proposed building would include car parking space within the construction footprint. I concur with the Highway Authority in that the proposals would effectively remove two spaces, in that space 18 would be unusable for a normal vehicle, and space 17 would be very close to the entrance to the new building.

However, and acknowledging that, I find that space 17 would nonetheless still be usable. Furthermore, space 18 could well be utilised for motorbikes or cycles. I also agree with the Highway Authority that the surrounding area is covered by parking controls, and that there is good access to public transport. I note that the Highway Authority have not raised an objection to the proposals.

Notwithstanding the above, the Council have raised concerns regarding the overall amount of car parking that would be provided on the site. I understand from the evidence provided that 15 car parking permits are currently issued, and this is controlled by the

owners of the building. This is below the 1:1 car parking standard set out within policy AM14, however it is reasonable to assume that the car park is not currently at capacity, and that it would remain under the control of the owners of the building. In addition, I am not in receipt of any evidence to suggest that there is an ongoing problem with car parking on the site. The car park is not available to be used by the public, and I am satisfied that the revised capacity would be sufficient to be able to control the private parking demand. I consider that the loss of two spaces would not cause significant harm to highway safety or lead to any on-street parking issues or traffic flow issues off site.

For the collective reasons outlined above, I conclude that the proposal would accord with policies AM7 and AM14 of the UDP which collectively state that, amongst other matters, that proposals should not cause significant harm to the conditions of highway and pedestrian safety and that the number of car parking spaces on the site would be sufficient for all land uses. "

As there would be one additional parking space provided (22) and the existing parking spaces Nos 17 and 18 would remain as at present and usable, the proposal is considered to comply with the Appeal Decision and Policies DMT 1, DMT 2 and DMT 6 of the Hillingdon Local Plan: Part Two - Development Management Policies (January 2020)

## **7.5 Urban Design, Access and Security Considerations**

Urban design:

See Section 7.2 of this report

Access and security:

The proposed building would be located along the northern site boundary of the car park to the rear of the main building. The car park is accessed via vehicular and pedestrian gates with key code access. The proposed changes would not impact on the existing security arrangements into the site.

## **7.6 Other Issues**
