Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

Wording proposed for Condition 31a:

Prior to the commencement of development for each relevant phase within the Outline Area, excluding demolition and enabling works, the principles of a Fire Statement shall be submitted to and approved in writing by the Local Planning Authority in consultation with the Health and Safety Executive. The statement should detail how the development proposal will function in terms of:

- i) the building's construction: methods, products and materials used, including manufacturers' details
- ii) the means of escape for all building users: suitably designed stair cores, escape for building users who are disabled or require level access, and associated evacuation strategy approach
- iii) features which reduce the risk to life: fire alarm systems, passive and active fire safety measures and associated management and maintenance plans
- iv) access for fire service personnel and equipment: how this will be achieved in an evacuation situation, water supplies, provision and positioning of equipment, firefighting lifts, stairs and lobbies, any fire suppression and smoke ventilation systems proposed, and the ongoing maintenance and monitoring of these
- v) how provision will be made within the curtilage of the site to enable fire appliances to gain access to the building vi) ensuring that any potential future modifications to the building...

Wording proposed for Condition 35:

Following 3 months post-construction / occupation, the post-construction tab of the GLA's whole life carbon assessment template should be completed accurately and in its entirety in line with the GLA's Whole Life Carbon Assessment Guidance. The post-construction assessment should provide an update of the information submitted at the planning submission stage, including the whole life carbon emission figures for all life-cycle modules based on the actual materials, products and systems used. This should be submitted to the GLA at:

ZeroCarbonPlanning@london.gov.uk, along with any supporting evidence as per the guidance. Confirmation of submission to the GLA shall be submitted to, and approved in writing by, the local planning authority, following 3 months post-construction / occupation of the relevant building.

Wording proposed for Condition 36:

Following 3 months post-construction / occupation of any phase / development plot, a Post Completion Report setting out the predicted and actual performance against all numerical targets in the relevant Circular Economy Statement shall be submitted to the GLA at:

CircularEconomyLPG@london.gov.uk, along with any supporting evidence as per the GLA's Circular Economy Statement Guidance. The Post Completion Report shall provide updated versions of Tables 1 and 2 of the Circular Economy Statement, the Recycling and Waste Reporting form and Bill of Materials. Confirmation of submission to the GLA shall be submitted to, and approved in writing by, the local planning authority, following 3 months post-construction / occupation.

Please state why you wish to make this amendment

For condition 31a, we propose adding the wording: "excluding demolition and enabling works". Demolition and enabling works can proceed for the subsequent phases of the project before submission of Fire Statements for the new build proposal.

For conditions 35 and 36, we suggest discharging these conditions three months after construction or occupation, rather than before occupation. This change will allow the Design and Site Teams to provide the Council with more accurate and realistic information.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
