Dear Nick,

**Millington Road: Energy & Sustainability Statement and Circular Economy Report Statement of Conformity**

This Statement of Conformity has been prepared following the production of the Energy & Sustainability Statement and Circular Economy Report. We understand that the scheme referenced above has been subject to some minor variations, with 13 studio units amended to 1-bed units.

We can confirm that there is no change to the strategy or related impact reductions detailed in the Energy & Sustainability Statement and Circular Economy Report. We therefore do not see a need to amend the submitted Energy & Sustainability Statement and Circular Economy Report.

I trust this letter suitably addresses any concerns, if however, further clarification is required please do not hesitate to get in touch.

Yours sincerely,

Jess James  
Director

JAW Sustainability
