## Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

- ☒ Yes
- ☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The ground floor and the first floor is retained as the existing. A staircase leading to the loft space has been proposed over the already existing stairwell and a window is proposed for ventilation and light. The proposed converts the loft floor into a habitable space with a large bedroom with ensuite and a space for the wardrobe which is accessed from the staircase directly. The remaining space is proposed to be used as eaves storage. 2 Roof-lights have been proposed in the wardrobe space to bring in more light into the dressing space. A flat dormer with 2 windows has been proposed towards the rear of the property so as to maximize the usable space in the proposed bedroom. The proposed roof plan has been retained as existing roof with addition of 2 roof lights towards the front and a flat roof dormer towards the rear of the property.

Does the proposal consist of, or include, a change of use of the land or building(s)?

- ☐ Yes
- ☒ No

Has the proposal been started?

- ☐ Yes
- ☒ No

## Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The building is not in a green belt, nor a listed building or in a conservation area. The property does not categorize itself as article 2(3) land "In National Parks, the Broads, areas of outstanding natural beauty, conservation areas, and land within World Heritage Sites". Therefore the property has permitted development rights. The PD Technical guidelines indicates the rights for householders to "improve and extend their homes without the need for planning permission". Hence it is lawful for the proposed development.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Design and Access Statement

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

**Please note that following changes to Use Classes on 1 September 2020:** The list includes the now revoked Use Classes A1-5, B1, and D1-2 that should not be used in most cases. Also, the list does not include the newly introduced Use Classes E and F1-2. To provide details in relation to these or any 'Sui Generis' use, select 'Other' and specify the use where prompted. See help for more details on Use Classes.

Is the proposed operation or use

- ☒ Permanent  
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

B.1 (b) that "any part of the dwelling house would, as a result of the works, exceed the height of the highest part of the existing roof", the proposed dormer does not exceed the highest part of the existing roof as shown on the proposed elevations. The topmost point of the roof is designed to be below the main house ridge line, this is sympathetic to the neighbouring building since it creates a coherent rear elevation and will not affect the street front. (d) The advantage of proposing the rear dormer is to add usable space into the converted attic area, the proposed new area does not exceed over 50 cubic metres.

which in turn does not overwhelm the existing form of the semi detached house.

B.2 (a) It's encouraged by the permitted development guidelines that "The materials used in any exterior work shall be of a similar appearance to those used in the construction of the exterior of the existing dwelling house" the proposed will be cladded in recycled tiles from the existing roof, this in turn will maintain the appearance of the exterior dwelling house. Condition B.2 (b)(i)(aa) states the edge of the enlargement closest to the eaves of the original roof shall, so far as practicable, be not less than 0.2 metres from the eaves, measured along the roof slope from the outside edge of the eaves.
