Is the proposed operation or use

☒ Permanent

☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

B.1 Development is not permitted by Class B if –

permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class M, N, P, PA or Q of Part 2 of this Schedule (change of use)

Not applicable

(b) any part of the dwellinghouse would, as a result of the works, exceed the height of the highest part of the existing roof

No part of the house once enlarged exceeds the height of the highest part of the roof of the existing house.

(c) any part of the dwellinghouse would, as a result of the works, extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway

No part of the roof extensions extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse

(d) the cubic content of the resulting roof space would exceed the cubic content of the original roof space by more than –

(i) 40 cubic metres in the case of a terrace house, or

(ii) 50 cubic metres in any other case

The additional roof space created does not increase the volume of the original roof space by more than 50 cubic metres for this detached house.

Conditions

B.2 Development is permitted by Class B subject to the following conditions –

the materials used in any exterior work shall be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse

The flat roofs of dormer windows will not normally have any visual impact and so the use of materials such as felt, lead or zinc for flat roofs of dormers will therefore be acceptable.

The face and sides of a dormer window will be finished using materials that give a similar visual appearance to existing house. Window frames will also be similar to those in the existing house in terms of their colour and overall shape.

(b) the enlargement shall be constructed so that –

(i) other than in the case of a hip-to-gable enlargement or an enlargement which joins the original roof to the roof of a rear or side extension –

(aa) the eaves of the original roof are maintained or reinstated; and

(bb) the edge of the enlargement closest to the eaves of the original roof shall, so far as practicable, be not less than 0.2 metres from the eaves, measured along the roof slope from the outside edge of the eaves; and

(ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension, no part of the enlargement extends beyond the outside face of any external wall of the original dwellinghouse.

All of these conditions B.2 (b) are complied with.
