

London Borough of Hillingdon, Residents Services, 3N Civic Centre, High Street, Uxbridge, Middlesex UB8 1UW
Tel: 01895 250230 Web: www.hillingdon.gov.uk

Application to determine if prior approval is required for a proposed: Change of use from
Commercial, Business and Service (Use Class E) to Dwellinghouses (Use Class C3)

Town and Country Planning (General Permitted Development) (England) Order 2015 (as
amended) - Schedule 2, Part 3, Class MA

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Site Location

Disclaimer: We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

Number	<input type="text"/>

Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

The current building and site

Please note: Eligibility questions relating to the current building being vacant for 3 months, and it's floorspace not exceeding 1,500 square metres were removed after these limitations were lifted by government on 5 March 2024.

Has the use of the building, for a continuous period of at least 2 years immediately prior to the date of this application, been any of the following:

- For periods prior to 1 September 2020
 - Shops (Use Class A1);
 - Financial and professional services (Use Class A2);
 - Food and drink (Use Class A3)
 - Business (Use Class B1);
 - Medical or health services
 - Non-residential institutions (Use Class D1(a));
 - Crèche, day nursery or day centre
 - Non-residential institutions (Use Class D1(b));
 - Indoor and outdoor sports
 - Assembly and leisure (Use Class D2(e)), other than an indoor swimming pool or skating rink;
- For periods from 1 September 2020
 - Commercial, Business and Service (Use Class E)

☒ Yes

☐ No

Is any land covered by, or within the curtilage of, the building:

- in a site of special scientific interest;
- a listed building or land within its curtilage;
- a scheduled monument or land within its curtilage;
- a safety hazard area;
- a military explosives storage area;

Or, is the building:

- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site

☐ Yes

☒ No

The proposed change of use

For applications, submitted before 1 August 2022, proposing a change of use to Dwellinghouses from Offices (Use Class B1(a)/E(g)(i)).

Is/Was there an Article 4 direction in place that has removed these specific permitted development rights?

☐ Yes

☒ No / Not relevant

Will all the proposed new dwellinghouses have gross internal floor areas of at least 37 square metres, and comply with the [nationally described space standard](#)?

☒ Yes

☐ No

Following the development, will every dwellinghouse in the building remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

☒ Yes

☐ No

Agricultural tenants

To be eligible for this permitted development right, all parties to any agricultural tenancy agreements that are currently in place need to provide consent.

This is to help ensure that agricultural tenants are not displaced to allow a change of use to be carried out.

Is any part of the land covered by or within the curtilage of the building to be demolished occupied under any agricultural tenancy agreements?

☐ Yes

☒ No

Fire Safety

Where the building (as proposed) exceeds certain limits, legislation has been put in place to ensure the adequate consideration of fire safety by the Local Authority (including its decision to grant prior approval) and other relevant parties.

Would the proposed development result in a building that contains two or more dwellinghouses, and is:

- 18 metres or more in height (as measured from ground level to the top floor surface of the top storey of the building); or
- contains 7 or more stories.

☐ Yes

☒ No

NOTE: More details on how to measure height and stories are available in paragraph (7) of [Article 9A of The Town and Country Planning \(Development Management Procedure\) \(England\) Order 2015](#) and [the related government guidance](#).

Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any dwellinghouses and other works proposed

Change of use of numbers 1 and 2 Warmair House from commercial (Class E) to residential (Class C3) to create three residential units.

A separate planning application is being submitted for external works.

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

A planning application is being submitted to amend the number of windows at number 1-2 Warmair House to ensure good light penetration. A daylight/sunlight assessment of the quality of the natural light within the building following these changes has been carried out by CPM Surveying and the Assessment is provided with the application. This confirms that all rooms except for one living, kitchen, dining (LKD) room (R4) at ground floor level will meet the SDA standard. However, this room has a lux over 170, which is above the standard for a living or dining room. In an urban location this is considered to be appropriate for a combined LKD on the basis that such rooms in flats are primarily used as living rooms. In regard to sunlight, the LKD rooms meet or exceed the BRE recommendations for sunlight exposure.

What will be the net increase in dwellinghouses?

3

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development.

Impacts and risks

Please provide details of any transport and highways impacts and how these will be mitigated, particularly to ensure safe site access

The application site has good public transport accessibility (PTAL 3) and is well connected to shops, services and facilities in Northwood Town Centre. The proposed scheme will provide two parking spaces and six cycle parking spaces. As detailed in the supporting Planning Statement, the existing vehicular access into the site from Green Lane will be retained. As a result of the change of use there will be less parking within the site, less vehicle trips into the site and less impact on the local highway network.

Please provide details of any contamination risks and how these will be mitigated

The existing building has been in place for many years and has not been used for heavy industry or polluting industries. As detailed in the Planning Statement, the risk of contamination is very low.

Please provide details of any flooding risks and how these will be mitigated.

The site is within Flood Zone 1 and is at low risk of flooding from rivers and the sea. The site has a medium to high risk of flooding from surface water due to the low-lying nature of this part of the site. Any surface water will be mitigated for by creating a communal amenity space at the lowest part of the site, which will also function as a SUDS feature or rain garden. Further details are set out in the Design and Access Statement.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated

Warmair House is not located in a designated employment area and there are no noisy commercial or industrial uses near to the application site.

The properties to the south and east of the application site are in residential use. Access to the rear of the site is only for occupants of Warmair House and the commercial properties fronting onto Green Lane are serviced on-street from Green Lane. As a result it is not anticipated that there will be any noise issues.

If the building is located in a conservation area, and the development involves a change of use of the whole or part of the ground floor. Please provide details of the impacts that the change of use will have on the character or sustainability of the conservation area and how these will be mitigated

Warmair House is located within the Northwood Town Centre Conservation Area and is identified in the Conservation Area Appraisal as being a positive contributor. However, the building is currently in a poor state of repair. The building will be retained and repaired and as a result, enhancements will be made to both the building and to the appearance of the conservation area.

The property is at the rear of the site and the change of use to residential will not impact on the character or sustainability of this part of the conservation area. Further information on the Conservation Area is contained within the submitted Planning Statement.

If the building is located in an area currently in use for general or heavy industry, waste management, storage and distribution, or a mix of such uses.

Please provide details of the impacts on intended occupiers of the development of the introduction of residential use in the area and how these will be mitigated

There are no heavy industry, waste management or large scale storage/distribution uses currently located on or close to the application site. The site is not located within a designated employment area. The frontage of the site is occupied by retail units with residential above.

There are already residential uses immediately adjoining the site. It is not considered that the change of use of the building to residential will impact on the surrounding area.

If the proposal involves the loss of services provided by a registered nursery, or a health centre. Please provide details of the impacts on the local provision of the type of services lost and how these will be mitigated

There will not be any loss of a registered nursery or health centre as a result of the proposed change of use.

List of flats and other premises in the existing building

Please provide a list of all addresses of any flats and any other premises within the existing building
