

Notes

This plot has been prepared with a scaling accuracy for a plot at a scale of 1/50

All levels are in metres and related to GPS.

The co-ordinate grid is based on GPS values.

All tree heights and spreads are approximate.

We have tried to identify tree types, however if tree species are critical specialist advice should be gained.

Drainage pipe sizes have been measured from the surface, chamber access has not been gained for safety reasons, therefore sizes should be regarded as approximate.
