Patient

Patio

This architectural cross-section diagram illustrates a brick wall with a stepped profile. The wall is composed of multiple layers of rectangular blocks. A central vertical opening is supported by a central column. Two diagonal beams run from the top left and top right towards the center, crossing at the base of the central column. A horizontal red dashed line marks the top of the wall. A small rectangular opening is located at the base of the wall. A vertical dashed line is positioned on the right side of the wall.
