

# Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

---

## When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

## 4. Biodiversity net gain strategy

### 4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

Yes

No

### 4.2 If no, what earlier date did you agree with the LPA?

### 4.3 How have you met 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

Replacing paved areas of the site with grass garden area.

### 4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on-site, including to avoid or minimise the impact on irreplaceable habitats.

All intended works have been determined following careful consideration of the opportunities to avoid and minimise a negative impact on habitats. While the small nature of the site requires some non-zero-rated habitats to be impacted, no habitat rated higher than "moderate" is affected by the development. As per the trading rules, lost habitats are being replaced on a like-for-like or like-for-better basis as set out in the metric sheet.

### 4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

Yes

No

#### **4.6 How will you achieve the target net gain percentage?**

- On-site
- Off-site
- Both-site

#### **4.7 Are any of your on-site enhancements considered 'significant'?**
