Dear Mr Wollaston ,

**TOWN & COUNTRY PLANNING ACT 1990 (AS AMENDED)
NATIONAL PLANNING POLICY FRAMEWORK 2024**

Stockley Park

Pre-application archaeological advice

Recommend No Archaeological Requirement

Thank you for your consultation received by Historic England on 21 August 2025.

The Greater London Archaeological Advisory Service (GLAAS) gives advice on archaeology and planning. Our advice follows the National Planning Policy Framework (NPPF) and the GLAAS Charter.

NPPF section 16 and the London Plan (2021 Policy HC1) make the conservation of archaeological interest a material planning consideration.

Having considered the proposals with reference to information held in the Greater London Historic Environment Record and/or made available in connection with this application, I conclude that the proposal is unlikely to have a significant effect on heritage assets of archaeological interest.

Please note that Historic England operates an access to information policy.

Correspondence or information which you send us may therefore become publicly available.

The planning application is not in an Archaeological Priority Area.

The GLHER records various prehistoric finds from Stockley Park but the designed landscape and development is modern and overlies earlier mineral extraction. GLAAS has reviewed the archaeological potential of this area in relation to previous developments and concluded that there is unlikely to be any surviving archaeological interest.

No further assessment or conditions are therefore necessary.

This response relates solely to archaeological considerations. If necessary, Historic England's Development Advice Team will respond separately regarding statutory matters.

Yours sincerely

Sandy Kidd
