Architectural elevation drawing of a building facade. The drawing shows a two-story structure with a gabled roof. The roof is covered in horizontal siding and features three small, square, double-hung windows. The main body of the building is divided into two sections. The left section has a large, arched entrance door with a transom window and a small, square, double-hung window above it. The right section has a large, rectangular, double-hung window with a decorative, crenellated finial above it. The building is finished with horizontal siding on the upper portion and brickwork on the lower portion. Dimensions are indicated: L1 = 3352 (width) and H1 = 2731 (height).

Proposed External Finish Materials to Match Existing External Finish Materials

The drawing is a line-art architectural elevation of a building facade. It features a gabled roof with a chimney on the right side. A section of the wall on the left is filled with a brick pattern, indicating a proposed finish material. The drawing is labeled 'Proposed External Finish Materials to Match Existing External Finish Materials'.
