Michael

Yes fine at the moment thanks

The images on application show the general doors and windows in wood stained black with Cuprinol black ash stain as per the sample viewed on site by the conservation officer Alisha.

Generally I would say use standard casements by Mumford & Wood and doors from a similar range see attachments.

Their casements are all Siberian oak with sapele sill units.

All would be double glazed 24mm units as standard and stained black ash.

Please find link and attachments above.

sales@mumfordwood.com

thanks

Hi Mike,

Hope you are well.

In the context of the Non-Material Amendment application (reference 8378/APP/2020/1448) and the new Listed Building Consent application (reference 8378/APP/2020/1486), it would be useful to pick up on one outstanding matter for the details of condition application (reference 8378/APP/2020/337).

In addition to the specification submitted for the rooflights, could you submit a specification for the proposed windows on the rear elevation?

Best regards,

On Tue, 31 Mar 2020 at 15:54, Mike Storr <mike@micasagroup.co.uk> wrote:

Michael

Looking at Alisha's list it looks like the main issue outstanding is the rooflight model number, with this in mind I attach the rooflight company size spec sheet and highlight the model number we would propose to use on the roof positions.

Thanks
