ARLON

DPF 8000 Vinyl Film

The Hard-To-Stick Surface Solution

DPF 8000 is a 3.5-mil (90 micron) satin white, high-tensile, PVC film with aggressive, permanent pressure-sensitive adhesive. Designed for indoor and outdoor graphics, DPF 8000 is made of 100% engineering-grade face stock with a polycoated lay-flat liner. The special adhesive system is designed to stick to "hard-to-stick" surfaces and low-energy surfaces such as brick, concrete and stucco walls and ABS plastic. DPF 8000 is designed to meet the marking requirements and specifications of the transportation, vending and automotive industries. The film conforms well to flat surfaces with slight contours when processed and applied according to Arlon recommendations. DPF 8000 is rated for outdoor durability up to 7 years* (unprinted). Printed durability is dependent on the ink system used.

APPLICATIONS & FEATURES

- Digital printing with a wide variety of direct print systems.
- Polyolefin plastic surfaces such as polyethylene, polypropylene, polyurethane, etc.
- Application in cold temperature environments.
- Slightly textured and/or low-energy surfaces.

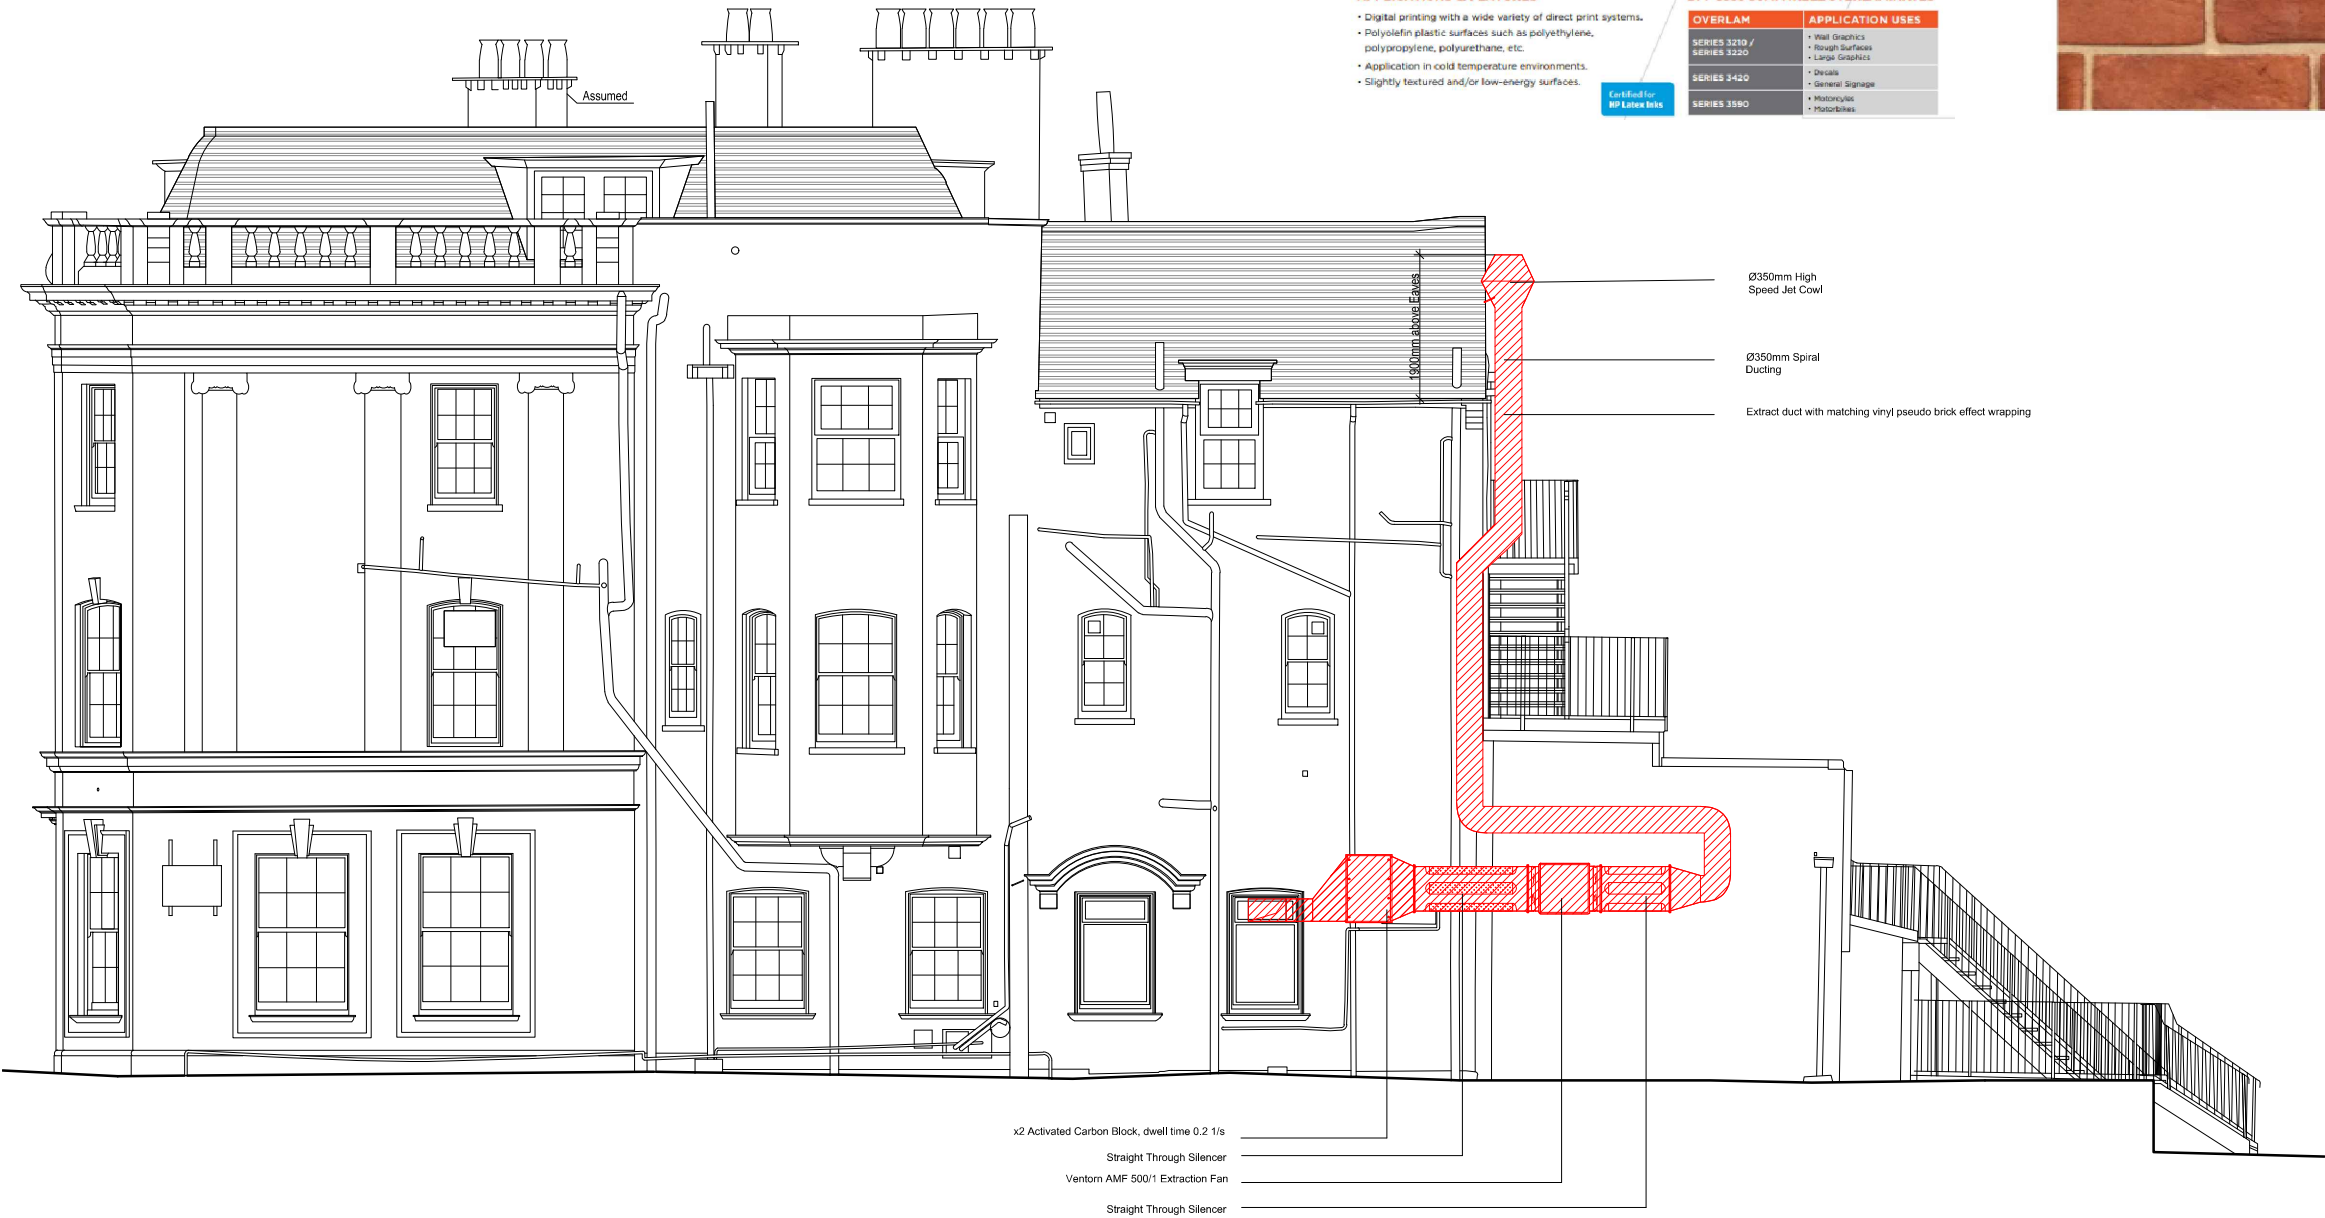

DPF 8000 COMPATIBLE OVERLAMINATES

OVERLAM	APPLICATION USES
SERIES 3210 / SERIES 3220	• Wall Graphics • Rough Surfaces • Large Graphics
SERIES 2420	• Details • General Signage
SERIES 3550	• Motorcycles • Motorbikes
