Dear Richard,

Unfortunately I am unable to make the meeting on Wednesday evening owing to a prior arrangement, however, Vincent Berry will be coming and will be available to answer questions on the security and tidiness of the store which has now been improved dramatically.

I believe Vincent is off this afternoon, but will no doubt respond to you tomorrow morning on his return. I am aware that signs have now been posted stating the store is to be kept locked at all times it is not in use and that the management of the waste within the store has been reviewed and action taken to ensure there is no unbagged waste left lying around.

I note the comments on the photographs relating to the overturned containers and feel Vincent has answered this in his previous email. This was an unfortunate incident brought about by TFL works to the main entrance road rendering the usual pathway inaccessible and the levels of snow and ice making the road way slippery. The Trust has a policy of not allowing the electric vehicles on to the road no matter what the circumstances are and I believe the driver has been reminded of this. It will not happen again.

With regards the weathering of the timber this is a natural process and will not change the colour adversely. From the residents comments it could be interpreted that he quite likes the timber as it is and whilst the oak tree hides 1 metre of the building our proposed hedge will hide the entire length.

Regards

David

David/ Vincent,

I share the latest petitioner's response on the bin store, which mainly includes photographs, some of which you have seen. You may wish to provide a response for the committee meeting, including need for improved security?

Regards,

Richard Phillips
