notes
1. Read in conjunction with all relevant Architects, Engineers & design team drawings & specifications
2. Any discrepancies must be drawn to the attention of the lead consultant in writing
3. All dimensions are in millimeters unless otherwise noted & are subject to checking on site prior to fabrication or ordering of materials
4. This drawing is the copyright of Bowles & Wyer (and other consultants where referenced)

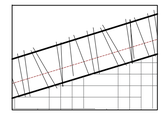

key

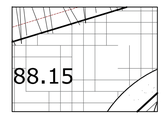

New Large Tree & Seating
Large focal point tree e.g. Liriodendron tulipifera to allow patients to sit underneath the canopy and appreciate the rustling leaves and seasonal change.
Benches by Barlow Tyrie with tree seat and curved Glenham benches

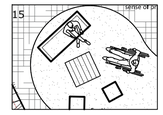

New Ornamental Trees
New ornamental trees predominantly multistem species
See planting plans for details

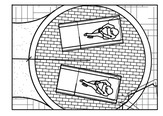

New Boundary hedging
New Beech hedge to provide privacy from road adjacent. Hedging to match top of existing railing height

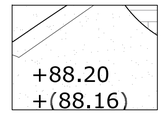

New Decorative Planting
New mixed planting with shrubs drifts of grasses and perennials.
Sensory plants to be used to stimulate patients

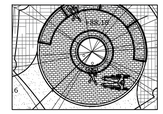

Bench seating
Locations shown for bench seating with backs and arm rests
Other space is left open to allow for Wheelchairs and ward beds

Bed area
Flexible space for beds to be pulled into and nestle amongst the planting.
Brick pavers by Vande Moortel to be permeable construction

Resin Bound Gravel
A smooth level and permeable surface for patients, visitors and staff to navigate, edged with steel.
The surface will be broken up in some areas with brick pavers as necessary

Vande Moortel Pavers
Clay pavers to break up expanse of resin bound gravel and to denote key seating areas within the garden
Permeable construction
