Details of the pre-application advice received

In the light of our previous discussions - and the previous approval of the planting proposals - I have no objection to the re-submission of the approved planting plan and schedules. I have not had a chance to review the site recently but, in view of the fact that the planting has already been implemented with at least the first season's growth a season's growth, I consider that it would be counter-productive to amend the planting plan at this stage. If the establishment and management/ maintenance specification can be re-enforced to ensure that any plant failures are replaced this will suffice.
